

Our 2005 Project:

## **“GREENWICH WATER: HOW RESIDENTIAL USE IMPACTS QUANTITY AND QUALITY”**

### **GCA Certificate of Excellence in Conservation**

#### **Life After Preview--**

The display was in Greenwich Town Hall—two display cases—for the month of April. It traveled to the Cos Cob Library for two months and then to Audubon in September 05, where it resides in full use as part of their education program as of Feb. 2005! A small version was used at the Greenwich Library in March '06 in association with a program on Chemical Free Lawns.
